

SPRING TIME HAT

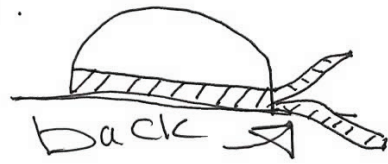

1.) BUY A HAT FROM a dollar store
or a thrift store

2.) ~~Remove~~ any ribbons or
flowers on it

3.) GLUE A NEW MORE FAB RIBBON

AROUND THE RIM.

leave some extra
hanging off the back

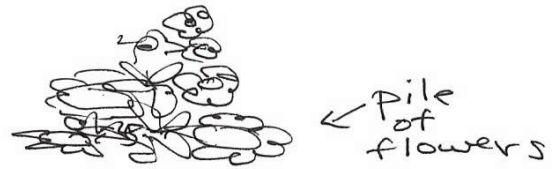

4.) While that ribbon is
drying

cut wool felt flowers
out of any and all
cuttle bug dies you own.

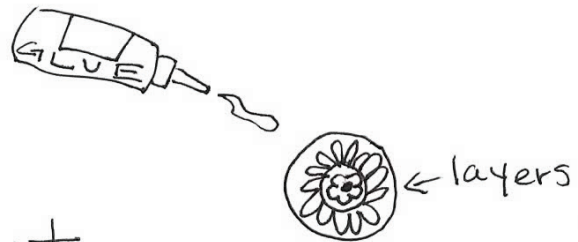

I also punched paper flowers
from my Marvy and Imaginisce
Punches.

5.) once you have a pile of flowers

start playing with them to build layers.

once you are happy w/ the layering start gluing them together.

6.) ALSO, I hand cut one big flower to place at the very top of the hat.

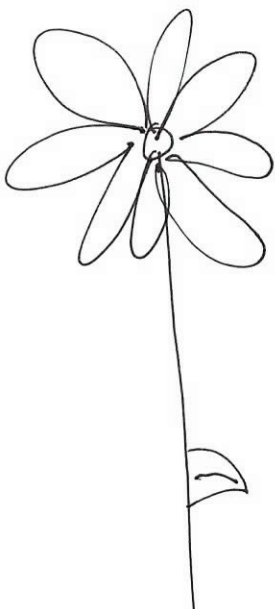

7.) the final step is, after all the flower layers are glued together - GLUE Them each to the hat.

There you have it!

Cute recycled Spring
flower hat.

Enjoy!
