

CAN'T FIND THE EXACT
OIL CLOTH YOU WANT?

NO PROBLEM → MAKE YOUR
OWN!

Here's How:

- 1.) BUY Your Fabric of choice
- 2.) CUT IT TO YOUR DESIRED SIZE
- 3.) BUY Heat & BOND IRON-ON VINYL Protection
- 4.) Set your iron to medium
- 5.) Peel the clear vinyl from the protective paper,
- 6.) Place vinyl, sticky side down onto fabric (smooth down & rub out any creases)
- 7.) Now place protective sheet w/ grid pattern up, on top of the vinyl - you will use this to iron on.
- 8.) Press & Hold iron all over the area where vinyl is - this will laminate the vinyl to the fabric

9.) Once you have done this to the face of the fabric flip over & iron across the entire back of the fabric.

Notes: For dbl sized vinyl pieces

1.) ~~Repeat~~ steps on both sizes
Repeat

2.) Many fabrics come w/ sizing in them & this can affect the vinyl lamination so pre washing is a good idea!

Enjoy your
homemade waterproof
fabric!
XOXO
LL
